WIKBORG | REIN

International Internship Program

Norwegian companies are facing enormous challenges, but also enormous opportunities. The same goes for us working within law. The issues we are facing are transboundary, multidisciplinary and more complex than before.

In Innovation Norway, Yara International and Wikborg Rein we are operating in this new reality. We therefore launched Norway's first international internship for law students last year, and are proud to offer you the opportunity again.

During the program you will have the opportunity to work in the intersection of public sector, international business and one of Norway's leading law firms.

We offer you

- 12-month program with 3 internship periods (September, January and June)
 - 4-6 weeks periods with Innovation Norway, Yara International and Wikborg Rein
 - At least one period working abroad
 - Working on international matters
 - Mentorship by experienced lawyers
-

The program is open for students who have started their third year.

Application period 13 January – 17 February
